# Information And Library Network Centre
## (An Inter-University Centre of University Grants Commission)
### Infocity, Gandhinagar-382007

**Training Programme on Bibliometrics and Research Output Analysis**
**(7th January – 9th January, 2015)**

## About INFLIBNET (Common content to all programmes)

Information and Library Network (INFLIBNET) is an autonomous Inter-University Centre of the University Grants Commission (UGC). The objectives of the Centre are to modernize libraries and information centres for information transfer and access, to support scholarship, learning and academic pursuit by establishing a national network of libraries and information centres in universities, institutions of higher learning and R & D institutions in India. Creation of national union database (IndCat), development of an integrated library management software (SOUL 2.0), human resource development, on-site training, providing bibliographic information services, extending technical help and guidance from time to time to academic libraries in automation and networking are some of the major activities of the Centre. The Centre provides access to e-resources to universities under the UGC-Infonet Digital Library Consortium. The Centre also provides access to 6500+ e-journals and 97,000+ e-books to the colleges in India though programme titled "National Library and Information Services Infrastructure for Scholarly Content (N-LIST)".

## Aims and Objectives of the Training Programme

The aim of the training programme is to give the participants sound overview of bibliometric methods, performance indicators and tools & techniques related to bibliometric analysis and mapping. It will provide awareness about the most commonly used data base, how to build -up relevant indicators and how to interpret the data. Special emphasis will be given to indicators used in research evaluation. Theoretically imparted knowledge will be consolidated with hands-on trainings whenever applicable in order to guarantee a sustainable learning experience.

## Major Topics

The following major topics will be covered in the programme.

- Overview of Bibliometrics
- Bibliometrics Elements and Laws
- Mathematical Foundation of Bibliometrics / Scientometrics
- Bibliometrics Tools and Techniques
- Bibliometric Methods for Subject Delineation
- Measuring Research Impact
- Advanced Bibliometric Methods for Evaluation, Ranking and Mapping of Research
- Bibliometric Indicators and Rankings of University Research Performance
- Thomson Reuters' Web of Science and Elsevier's Scopus Databases

## Resource Persons

The lecturers are prominent researchers, scientists/professors in the field of bibliometrics. They also have an extensive experience with the application of bibliometric analysis in a research evaluation.
